

7518 Whigham Ct, Dublin, OH 43016 — Pricing Analysis

Source: Franklin County Auditor parcel data (canonical GIS layer). Comps = arms-length single-family sales in appraiser neighborhood 00111000, last 24 months. Generated from the local pipeline.

The home

Parcel	273-005856
Above-grade sqft	1,868
Beds / baths	3 / 2
Year built	1992
Assessed value	\$417,900
School district	Dublin CSD
Appraiser neighborhood	00111000 (84 usable comps, 24 mo)

Suggested list range: ~\$510K – \$535K (anchor ~\$520K–\$525K)

\$/sqft falls as homes get larger, so the neighborhood-wide median understates a smaller home like yours. The **size-matched** method is the right lens:

Method	n	median \$/sqft	→ est. for 1,868 sqft
All neighborhood comps (24 mo)	84	\$255	\$477K
Size-matched (1,588–2,148 sqft)	8	\$280	\$523K
Size-matched, last ~12 mo	4	\$285	\$532K
2026 sales (all sizes)	13	\$259	\$484K

Sanity check: \$523K ÷ \$417,900 assessed = **1.25** — squarely in this neighborhood’s normal 1.2–1.4 sale-to-assessment band, so it’s not an aggressive number.

2024-05-06	7244 Hopewell Ct	1,772	\$521,000	\$294	3/2	1.27

Best single anchor — your street: 7495 Whigham Ct (same year, 4 bd, 2,212 sqft) sold **\$600,000** on **2026-04-17** at \$271/sqft. Bigger and 4 bd vs. your 3 bd, so a smaller 3 bd landing ~\$520K is consistent.

Distribution

Figure 1: \$/sqft distribution

In the shaded size band (~1,590–2,150 sqft), sales cluster ~\$500K–\$565K, with one renovated outlier at \$650K (5600 Caplestone, your exact sqft) — the condition premium, made visible.

What moves the number — your call

- **Condition / updates.** The spread is real: 5600 Caplestone hit **\$348/sqft (\$650K)**, almost certainly renovated, vs. dated comps near \$265. If yours is updated (kitchen/baths/floors), push toward the top of the range or beyond; if original-1992, hold ~\$505K–\$515K.
- **3 vs 4 bed.** Several size-matched comps are 4 bd; a 3 bd at your size trails slightly — already baked into the conservative anchor.

Market timing

Dublin \$/sqft has been **range-bound for two years** (~\$240–260 neighborhood-wide; ~\$280 for your size class) — no runaway, no rollover. Pricing here is about condition and comp selection, not timing.

Full neighborhood comp set: *whigham_comps.csv* (84 rows). Hygiene note: *VALID* is unpublished in county GIS data; arms-length status is judged by the sale-to-assessment ratio + price-floor proxy (calibrated against 250 scraped transfers). All comps above passed.
